Unten den Linden 6, D-10099 Berlin  
Germany

Dear Authors,

In the following, the term “the authors“, is to be construed as meaning J. Sauer, F. Bischoff, M. Alessio, M. John and M. Rybicki.

In regards to the program MonaLisa with which you have supplied me a copy, I agree to the following

1. I understand that copyright and intellectual property rights are retained by authors.
2. I will not supply a copy of the code to anyone outside my institution for any reason whatsoever. This applies to all parts of the program, except any third party library routines. Instead, I will refer any requests for copies of the program to the authors. This in no way limits my making of copies of the code for backup purposes, or for running on more than one computer system at my institution.
3. I will inform authors about any modification to the MonaLisa code.
4. I understand that no large program such as MonaLisa can be considered to be bug free, and accordingly the authors supply the MonaLisa software on an “as is” basis, with no additional responsibility or liability.
5. If results obtained with MonaLisa are published in the scientific literature, I will reference the program as suggested on the internet site of the project: <https://www.chemie.hu-berlin.de/de/forschung/quantenchemie/monalisa>
